

MEASUREMENT, TEST & CONTROL TECHNOLOGY SHOW

INTERMEASURE2018

OPENING
NEW DOORS WITH
"HAKARU"

Date | **September 26 (Wed)~28 (Fri), 2018**

Venue | **Tokyo Big Sight East Hall 4 & 5**

Organizer Japan Measuring Instruments Federation (JMIF)

Supported by Ministry of Economy, Trade and Industry, Ministry of Education, Culture, Sports, Science and Technology (Planned), etc.

In cooperation with Chemicals Evaluation and Research Institute, The Society of Instrument and Control Engineers, The Japan Chamber of Commerce and Industry, etc

Admission Free

Japan Measuring Instruments Federation

CREATING FUTURE WITH “HAKARU”

INTERMEASURE is ...

One of the largest comprehensive exhibitions in the measuring and equipment.
For presenting new products, developing new business and creating networks, this year, under the theme of OPENING NEW DOORS with “HAKARU”

What's “HAKARU”?

There is “measurement” in all things.
“HAKARU” is the commonly used Japanese word for the action of measurement.

Exhibits Category

Measuring instruments (including related equipment, system, application, services) for manufacturing, social infrastructure, quality/process management, testing/inspection, medical and healthcare and so forth.

Concurrently Held Events For disseminating the latest information on measuring

Keynote lectures and seminars

There will be keynote lectures by prominent figures active in industry. There will be seminars, lectures and symposia on laws and standards, new technologies and new materials, etc.

NMIJ Legal Metrology Seminar / The Japan Measurement Standards Forum

Co-organized by National Metrology Institute of Japan (NMIJ), we will introduce trends in tests and inspections in the field of legal metrology conducted by NMIJ.

This year, in line with the revisions to ministerial ordinances concerning Measurement Act, presentations regarding the revisions will be delivered in a timely manner at NMIJ Legal Metrology Seminar.

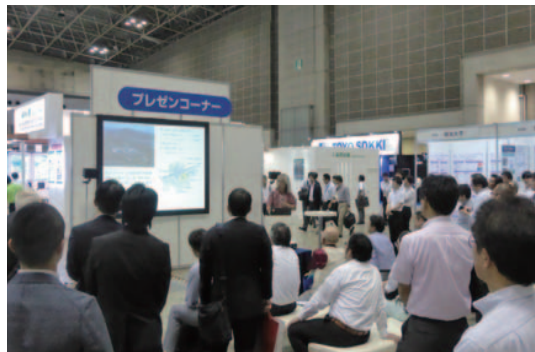

Exhibition Display Section

In accordance with the revisions to ministerial ordinances concerning the Measurement Act, special exhibits of automatic weighing instruments designated as specified measuring instruments have been planned, and the very latest, useful information will be disseminated to users of food, chemical, medical and agricultural products, etc.

Academy Plaza (University / Research Institution Corner)

We will introduce cutting-edge technology, basic technology and information relating to metrological sensors, etc., owned by universities and experimental research institutes.

We aim to promote collaboration between research fields and industry.

Concurrent exhibitions

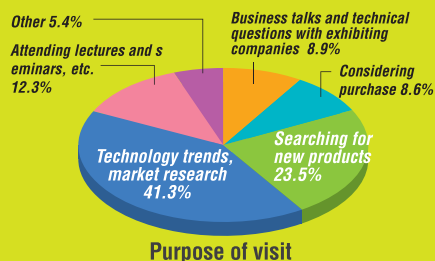

- Sensor Expo Japan 2018
- The 9th Japan Inspection Instruments Manufacturers' Show
- SUBSEA TECH JAPAN 2018

- Soil and Groundwater Remediation Technology Expo
- Soil Improvement Technology Expo
- Foundation Work Engineering Expo

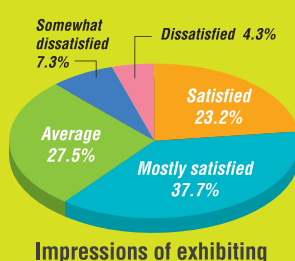

Report on previous event

September
28 (Wed.) - 30 (Fri.), 2016

Tie-ups with concurrent exhibitions

(Total of 353 companies and institutions / 568 booths in 2016)

INTERMEASURE 2016 / Sensor Expo Japan 2016 /
8th Japan Inspection Instruments Manufacturers' Show /
Soil Improvement Technology Expo 2016

Number of Visitors in 2016
51,453

Expansion of Visitor Promotions

In order to mobilize visitors, the organizer will deploy visitor promotion activities, through newspapers, professional journals, and other media, in addition to the list of visitors to date.

300,000 Direct Mails Issued

We will actively conduct announcement activities by utilizing the database of visitors up to the previous exhibition, member companies such as the 68 sponsoring organizations, mailing list of the federation's public relations magazine "Hakaru", and various other lists.

To make it easy for exhibitors to invite users, we will provide, free of charge, as many exhibition invitations, bearing the name of your company and the contents of the exhibition, as you require. English version will be also issued.

Newspapers, Magazines and Professional Journals - Deploying PR with Media -

We will conduct PR activities through major industrial newspapers such as Fuji Sankei Business i, Nikkan Kogyo Shimbun and professional journals such as Instrumentation and Automation and Nikko Forum. We will also publish a special "Exhibition" issue of JMIF magazine "Hakaru" to mobilize visitors.

Delivering the Latest Information via the Web and Email Magazines

The INTERMEASURE 2018 Website has been launched and it will deliver the latest information on exhibitors, exhibited products and joint projects (such as lectures and seminars). We will also mobilize visitors by utilizing electronic media such as information sites aimed at engineers.

Visitor Benefits

Measuring Instruments 2018/2019, introducing the latest products in Japanese and English, will be presented to visitors free of charge. A comprehensive catalog of the latest 1000 instruments and related system products handled by Japan's leading measuring instrument companies "Measuring Instruments 2018/2019" (A4, 400 pages), featuring product photographs, features and specifications, etc., in both Japanese and English, will be presented free of charge to visitors.
